Commercial PNT Request For Information (RFI)

Mission: To understand industry capabilities for commercially available, non-developmental (production ready within 90 days), M-Code solutions compliant with the Defense Advanced GPS Receiver (DAGR) A-Kit (mount) and DAGR space claim within mounted vehicles.

Intent: Identify affordable PNT materiel solutions for mounted platforms that can leverage existing platform/system integrations to inform Army Senior Leader trade-space.

Industry Engagement:

- 29 JAN 26: Posted commercial RFI.
- 12 FEB 26: Received 10 vendor responses.
- 16 FEB 26: Evaluation initiated.
- 27 FEB 26: Assessment completed, 9 out of 10 vendors deemed viable.
- APR 2026: Conducted vendor 1-on-1s.

Takeaways & Way Ahead

- RFI results showed delineation between GPS-only solutions and full APNT solutions.
- Analyze planned force positioning and PNT use in a conflict, comparing it against the forecasted threat environment and the current Mounted PNT fielding plan.
- Validate fielding plan and identify opportunities to satisfy requirements by applying tiered capabilities based on operational risk- pending Army Senior Leader buy-in.
- Industry, please monitor SAM.gov for future updates.
